* Land descriptions following the asterisk are located wholly or partially within the boundaries of the Gila Box Riparian National Conservation Area.

The areas described, include both public and non-public lands in the application and aggregate 13,232.43 acres, more or less, in Graham and Greenlee Counties.

Under Title II of Public Law 101–628, (Arizona Desert Wilderness Act), a portion of the subject land was afforded continued protection by virtue of designation as the Gila Box Riparian National Conservation Area (NCA). This action withdrew all Federal lands within the NCA from all forms of entry, appropriation, or disposal under the public land laws; from location, entry, and patent under the United States mining laws; and from disposition under all laws pertaining to mineral and geothermal leasing, and all amendments thereto. This action negates any need to further withdraw the land.

As a result of designation as the Gila Box Riparian NCA and deauthorization of the Camelsback Dam project, the Corps of Engineers requested withdrawal application AR–030451 be rescinded. All public land located outside the boundaries of the NCA are open to filings under the public land laws and the mining laws. It was opened to mineral leasing on February 28, 1982, (FR Vol. 47, No. 17, page 3623, January 26, 1982). Subsequent actions are subject to valid existing rights, and on lands along the Gila and San Francisco Rivers, decisions are pending concerning the wild and scenic rivers

designation as recommended in the Final Arizona Statewide Wild and Scenic Rivers Legislative Environmental Impact Statement, approved December 1994. Upon publication in the **Federal Register**, application AR–030451 will be cancelled and the records of the Bureau of Land Management appropriately noted. Casefile AR–030451 will be closed.
